

The 20th Annual Meeting of the Japan Society of Sonochemistry & The International Workshop on Advanced Sonochemistry

November 2-4, 2011 Nagoya University, Nagoya, Japan

➤ **First Call for Papers**

The International Workshop on Advanced Sonochemistry and the 20th Annual Meeting on the Japan Society of Sonochemistry (JSS) will be held at Noyori Conference Hall in Nagoya University, Nagoya, Japan, from November 2-4, 2011. The JSS established in 2003 is holding the annual meeting related to the basic science and the applications of ultrasound in chemistry and related fields (e.g. cavitation, sonoluminescence, organic chemistry, inorganic chemistry, environmental applications, medical applications, etc.). The JSS will celebrate its 20th anniversary in 2012 and set up the International Workshop on Advanced Sonochemistry jointed with the 20th annual meeting on the Japan Society of Sonochemistry. The workshop will be composed of invited lectures, oral and poster presentations. The official language will be English and all paper should be written in this language. The organizing committee welcomes many people who are interested in sonochemistry and its application, from all over the world.

Web Site of the International Workshop on Advanced Sonochemistry and the 20th Annual Meeting on the JSS:

<http://j-sonochem.org/j-sonochem2011/>

➤ **General Topics**

- (1) Cavitation & Sonoluminescence
- (2) Organic Chemistry
- (3) Inorganic Chemistry
- (4) Environmental Applications
- (5) Medical Applications
- (6) Others

➤ **Important Date**

Deadline for submitting title: July 22(Fri), 2011

Notification of title acceptance: August 31(Wed), 2011

Deadline for submitting paper: September 30(Fri), 2011

➤ **Attention**

The latest information on the International Workshop on Advanced Sonochemistry and the 20th Annual Meeting on the JSS will appear on the website soon.

For more information, please contact:

Organizing Committee Chairman:

**Prof. Shinobu Koda
(Nagoya University)**

Secretariat:

Prof. Keiji Yasuda (Nagoya University)
